

Rules Rule!

What would the world be like without rules? Imagine what would happen if we didn't stop at red lights, or if bullying kids at school was allowed. What if it was okay to cheat to win a game?

Without rules and laws, life would be chaotic. Rules at home and school keep us healthy and safe. Some laws help protect our rights to speak, learn, and worship.

Rules in sports keep the game fair for everyone. By respecting rules and laws, we help promote justice.

Look at the game below and read the posted rules. List at least seven ways kids on the left are respecting the rules and encouraging others. Then list at least seven ways kids on the right are breaking the rules and playing unfairly.
