

MUSIC CAFÉ

"Music, sung or played, is spiritual food for soul and heart." —'Abdu'l-Bahá

When we recognize that all religions teach the same essential truths, humanity can begin to live in harmony. One way to be in harmony with people is to sing together. The verses of this song are spoken, but you can harmonize with friends and family of all faiths on the chorus.

THE SPIRIT'S THE SAME

2 What are these truths we all should seek?
How about a language we all can speak?
Male and female equality,
All kinds of prejudice are wrong.
Religion and science both agree
About the oneness of humanity.
God's faith should cause harmony,
Just like this song.

CHORUS

3 Honesty, courtesy,
Modesty, humility,
Our actions should cause unity.
We ought to shine like a star,
So that when we're walking up and down the street,
All the people around can plainly see
That our words and our actions both agree,
And they'll know who we are.
